REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The art of record fail to teach or suggest an endoscopic clip applier having four jaw legs adapted to engage at least four points on a clip and the legs are actuatable to at least one other opposing leg and further wherein the applier has four pivot points and the jaw legs are pivotally attached to the pivot points.

Even further, the prior art fail to teach a clip applier having an axially movable distal end section, wherein the distal end section has a plurality of distal cam surfaces spaced around a cross-section of the distal end section; and wherein an elongate assembly comprises a shaft and disposed in a channel containing clips and the shaft and distal end section are movable relative to the channel.

For these reasons the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
